

Special for 2010

Your Dream Team for easy Measuring and Aligning Leica DISTO™ D2 & Leica Lino L2

\$650.00
Incl. GST

Code: DISTOD2LINOL2

A team that makes you more efficient and even more professional

This Interior Package from Leica Geosystems combines everything that you will need to do your job accurately and reliably.

The instruments are compact, handy and easy to use. Your DISTO™ and LINO will be stored safely and ready-to-use in the robust carrying case.

Keeping your tools in the carrying case also ensures that nothing will be lost or forgotten.

Leica DISTO™ D2

The Original Laser Distance Meter

Quick and efficient

Just press the button and measure. One person measuring that saves you both time and money.

Precise and reliable

Using a Leica DISTO™ D2, you can measure up to 60 meters with millimeter accuracy and always see your targeting point, even if the target object is in a hard to access area. After using a Leica DISTO™ you will never use a measuring tape again!!

Leica Lino

The perfect alignment tool

Highly visible laser lines

Stop wasting time drawing lines on the wall! The Leica Lino projects lines accurately to the millimeter, allowing you to have your hands free to get on with your work

Setup, switch on, and get to work!

The Leica Lino is automatically self-leveling. It is not necessary to tediously align the device to obtain horizontal or vertical lines. Minor angular misalignments of $\pm 4^\circ$ are compensated for automatically

Exact 90° angle

Alignment work, such as marking 90° angles, is performed at the touch of a button. Save time and increase your productivity with the Leica Lino.
